Welcome to Guardian Capital Advisors

At Guardian Capital Advisors, LLC, (GCA), we are advocates for our clients. We partner with them and based on their unique situations, align our interests with theirs. We help in making decisions that focus on maintaining and enhancing the buying power of our client's assets over time. By focusing on risk first, as compared to a strategy centered around relative return on investment, we position clients to participate in upside movements in the markets when possible, while also attempting to preserve capital when markets shift.

With two primary areas of concentration, GCA specializes in comprehensive planning and advisory services for individuals, as well as consulting and management of retirement plans for businesses. For individuals, GCA offers a number of services covering all stages of life, including family financial planning and estate planning. With businesses, GCA maintains a core competency in 401(k) plans, specializing in consulting, plan management and education for this client base.
